

THE LAST NETWORK YOU WILL EVER NEED, GUARANTEED. REALIZE YOUR POTENTIAL.

WANRack was founded to provide school districts better infrastructure solutions. Over time, we have leveraged our expertise to benefit additional industries. WANRack is a turn-key telecommunications service provider. WANRack has over a decade of experience in various federal and state grant programs to fund infrastructure solutions. As of July 2021, WANRack is privately owned and backed by CBRE, the second largest infrastructure fund in the world. WANRack partners with prospective customers of all sizes to design, engineer, construct and maintain their custom infrastructure solutions to help them meet their mission and goals.
